

**US DEPARTMENT OF DEFENSE AND SUBCONTRACTORS'
CONCERNS ABOUT
MATERIALS CONTAINING CERTAIN PHTHALATES**

May 2013

Glenair, Inc. takes these requests for information about use of certain phthalates in Glenair products extremely seriously and has set up robust processes to research production materials.

As part of our comprehensive due diligence, we have created cross functional team to work with our suppliers to determine if phthalates are present in production materials. This research is in process. To date, all Glenair suppliers who have responded to our survey have indicated US Department of Defense-listed phthalates are not present in Glenair production materials.
